

16 June 1987

NOTE TO: DDI  
DDA

FROM: D/OIR

1. Attached is some background material for your meeting at ICS tomorrow. It was reviewed by D/CSP0 and D/OIT.

STAT 2. The ICS has requested briefings by D/CSP0 and by the CIA and DIA program managers on CSP0. Because those briefings would take more than one hour, [ ] will provide a short program status briefing and make the offer to provide more detail on the SAFE program, if you and the others want it. I suggest that you not get too involved in the nitty gritty of the program.

STAT 3. As best I can determine from [ ] who works for [ ] DIA's primary objective is to obtain from you a commitment for CIA support through Delivery 4 Set 1. We, of course, want separation sooner rather than later because we cannot afford continued joint development. Also, both agencies must begin discussions (and negotiations) now regarding separation. We owe the Comptroller a separation plan by 17 July, and the ICS wants that plan in early August. DIA faces a similar ICS deadline; it owes the ICS a paper on how it will operate after Delivery 4. It is in the interests of both agencies to try to get together on major issues and not give the ICS much opportunity to serve as a mediator.

4. If you need anything else, please give me a call.
